

Product Name: IMTRADE TRICHEM HERBICIDE

APVMA Approval No: 53818/RV2024

Label Name	IMTRADE TRICHEM HERBICIDE
Signal Headings	DANGEROUS POISON KEEP OUT OF REACH OF CHILDREN READ SAFETY DIRECTIONS BEFORE OPENING OR USING
Constituent Statement:	ACTIVE CONSTITUENT: 280 g/L MCPA present as the iso-octyl ester 140 g/L BROMOXYNIL present as the octanoate ester 40 g/L DICAMBA present as the acid SOLVENT: 256 g/L HYDROCARBON LIQUID
Mode of Action:	GROUP 4 6 HERBICIDE
Statement of Claims:	For the control of certain broadleaf weeds in Wheat, Barley, Commercial Rye, Oats, Triticale and Turf as per the DIRECTIONS FOR USE table. IMPORTANT: READ THE ATTACHED LEAFLET BEFORE OPENING OR USING THIS PRODUCT.
Net Contents:	5L, 20L, 110L, 200L 1000L
Restraints:	DO NOT spray when rain seems likely to occur within 3 hours. DO NOT spray when weeds are wet with dew or rain, or when under stress from drought, low soil fertility, extreme cold or water-logging. DO NOT apply to crops undersown with legumes.
Directions For Use:	
Other Limitations:	
Withholding Period:	DO NOT HARVEST, GRAZE OR CUT FOR STOCK FOOD FOR 8 WEEKS AFTER APPLICATION.
Trade Advice:	
General Instructions:	GENERAL INSTRUCTIONS Note: A temporary wilting may be evident in crops after application. Under some conditions, regrowth and successive germination of weeds may occur following treatment and may require follow-up spraying. CROP SAFETY DO NOT spray outside crop growth stages recommended as crop damage may result. DO NOT apply to recently released cereal varieties until advice has been sought from the manufacturer or local Department of Agriculture. MIXING Add the required amount of Imtrade Trichem Herbicide directly to the water in the tank and mix well. APPLICATION

	<p>DO NOT apply by misting machines.</p> <p>For Boom Application - Apply by a properly calibrated boom spray using not less than 50L of water per hectare.</p> <p>For Aerial Application - Apply at least 25L of total spray volume per hectare. The aircraft should fly as low as practical under the prevailing conditions to minimise drift.</p>
--	---

Resistance Warning:	<p>RESISTANT WEEDS WARNING</p> <p>Group 4 6 Herbicide</p> <p>Imtrade Trichem Herbicide is a member of the nitriles, phenoxys and benzoic acids group of herbicides. Imtrade Trichem Herbicide has the inhibitors of photosynthesis at photosystem II and disruptors of plant cell growth mode of action. For weed resistance management Imtrade Trichem Herbicides is both a Group 4 and Group 6 Herbicide. Some naturally-occurring weed biotypes resistant to Imtrade Trichem Herbicide and/or inhibitors of photosynthesis at photosystem II and disruptors of plant cell growth herbicides may exist through normal genetic variability in any weed population. The resistant individuals can eventually dominate the weed population if these herbicides are used repeatedly. These resistant weeds will not be controlled by Imtrade Trichem Herbicide or other disruptors of plant cell growth herbicides. Since the occurrence of resistant weeds is difficult to detect prior to use, Imtrade Australia accepts no liability for any losses that may result from the failure of Imtrade Trichem Herbicide to control resistant weeds.</p>

Precautions:	
---------------------	--

Protection Statements:	<p>PROTECTION OF CROPS, NATIVE AND OTHER NON-TARGET PLANTS Spray equipment must be calibrated accurately prior to working on crops. Keep container sealed (airtight) when not in use. All spray equipment must be thoroughly washed out after use and must not be used for spraying horticultural crops.</p> <p>DO NOT use in close proximity to vines, tomatoes and other susceptible crops including flowers, vegetables, ornamentals, lupins and fruit trees.</p> <p>To prevent damage, DO NOT permit drift or vapour spray mist to come in contact with fruit and ornamental trees, cotton, vines, vegetables, flowers, tobacco, lupins or any other field crop. Minimise spray drift by using low pressure and nozzles which do not give a fine droplet size.</p> <p>DO NOT use in high wind.</p> <p>DO NOT apply Imtrade Trichem Herbicide on or near desirable trees or plants or in locations where the chemical may be washed or moved into contact with their roots.</p> <p>PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT DO NOT use container for any other purpose.</p> <p>DO NOT contaminate streams, rivers or waterways with the chemical or used containers.</p>
-------------------------------	--

Storage and Disposal:	<p>STORAGE AND DISPOSAL (5L, 20L, 200L only)</p> <p>This product must be stored in a locked room or place away from children, animals, food, feedstuffs, seed and fertilisers. Store in closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple, or preferably, or pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the container below 500mm in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.</p> <p>Envirodrum 110L Mini Bulk Returnable Container</p>
------------------------------	---

	<p>This product must be stored in a locked room or place away from children, animals, food, feedstuffs, seed and fertilisers. Store the original sealed Envirodrum in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. DO NOT tamper with the Micro Matic valve or the security seal. DO NOT contaminate the Envirodrum with water or any other foreign matter. After each use of the product, please ensure that the Micro Matic coupler, delivery system and hoses are disconnected, triple rinse with clean water and drained accordingly. When the contents of the Envirodrum have been used, please return the empty Envirodrum to the point of purchase. The Envirodrum remains the property of Imtrade Australia Pty Ltd.</p> <p>Refillable containers (1000L only) This product must be stored in a locked room or place away from children, animals, food, feedstuffs, seed and fertilisers. Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.</p>
--	---

Safety Directions:	<p>SAFETY DIRECTIONS Harmful if absorbed by skin contact or inhaled or swallowed. Will irritate the eyes and skin. DO NOT inhale vapour or spray mist. Repeated exposure may cause allergic disorders. When opening the container and preparing spray (or other form) wear cotton overalls buttoned to the neck and wrist, a washable hat and elbow-length PVC gloves, face shield and goggles. When using the prepared spray (or other form) wear cotton overalls buttoned to the neck and wrist and a washable hat and elbow-length PVC gloves. If product is in eyes, wash out immediately with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each days use, wash gloves, face shield and goggles and contaminated clothing.</p>

First Aid Warnings:	
----------------------------	--

DIRECTION FOR USE:

Crop	Crop Stage	Weeds	State	Rate	Critical Comments
Wheat, Barley, Oats, Triticale, Cereal Rye	3-leaf to fully tillered (from Zadoks 13 to 30)	Group A: ** Ball Mustard (<i>Neslia paniculata</i>) Capeweed (<i>Arctotheca calendula</i>) Docks (Seedlings only) (<i>Rumex</i> spp.) Doublegee (Spiny Emex, Threecornered Jack) (<i>Emex Australia</i>) Hedge Mustard (<i>Sisymbrium officinale</i>) Indian Hedge Mustard (<i>Sisymbrium orientale</i>) Wild Mustard (<i>Sisymbrium</i> spp.) Wild Radish (<i>Raphanus raphanistrum</i>) Wild Turnip (<i>Brassica tournefortii</i>) Wireweed (Hogweed) (<i>Polygonum aviculare</i>) Yellow Burr Weed (Amsincka) (<i>Amsinckia</i> spp.)	Qld, NSW, Vic, SA WA only	750 mL/ha	3 to 4-leaf stage but not more than 3cm in diameter.
				1L/ha	4 to 6-leaf stage but not more than 5cm in diameter.
Wheat, Barley, Oats, Triticale, Cereal Rye	5-leaf to fully tillered (from Zadoks 15)	Turnip Weed (<i>Rapistrum rugosum</i>) Rough Poppy (<i>Papaver hybridum</i>) Saffron Thistle (<i>Carthamus lanatus</i>)	WA only	1.4L/ha	6 to 8-leaf stage but not more than 10cm in diameter.
		Deadnettle (<i>Lamium amplexicaule</i>) Vetch (<i>Vicia</i> spp.)	Vic only		
		Charlock (<i>Sinapis arvensis</i>) Fat Hen (<i>Chenopodium album</i>) Lesser Swinecress (Bittercress) (<i>Coronopus didymus</i>)	Tas only		
	3-leaf to fully tillered (from Zadoks 13 to 30)	Group B: ** Climbing Buckwheat (Black Bindweed) (<i>Polygonum convovulus</i>) Common Iceplant (<i>Mesembryanthemum crystallinum</i>) Denseflower Fumitory Red (<i>Fumaria densiflora</i>) Hoary Cress (<i>Cardaria draba</i>) Small Flowered Fumitory White (<i>Fumaria parviflora</i>) Tree Hogweed (<i>Polygonum patulum</i>) White Ironweed (Sheepweed) Corn Gromwell (<i>Buglossoides arvensis</i>)	Qld, NSW, Vic, SA WA only	1L/ha	2 to 4-leaf stage but not more than 3cm in diameter.
	5-leaf to fully tillered (from Zadoks 15 to 30)			1.4L/ha	6 to 8-leaf stage but not more than 10cm in diameter.
Wheat, Barley, Oats, Triticale, Cereal Rye	5-leaf to fully tillered (from Zadoks 15 to 30)	Slender Thistle (<i>Carduus</i> spp.) Spear Thistle (<i>Cirsium vulgare</i>) Variegated Thistle (<i>Silybum marianum</i>) Wall Fumitory (Pink Weed) (<i>Fumaria muralis</i>)	Tas only	1.4L/ha	4 to 6-leaf stage but not more than 100- 120mm in diameter. Wall Fumitory is severely stunted by 1.4L/ha.
Recreational Turf, Established Couch (incl. Queensland Blue), Kikuyu, Paspalum, Fescue, Bent, & Rye Lawns.		Broadleaf Weeds, including: Bindy-eye (<i>Calotis hispidula</i>) Capeweed (<i>Arctotheca calendula</i>) Carrot Weed (<i>Cotula australis</i>) Caustic Weed (<i>Euphorbia drummonii</i>) Clovers (<i>Trifolium</i> spp.) Common Plantain (<i>Plantago</i> spp.) Creeping Buttercup (<i>Ranunculus repens</i>) Cudweed (<i>Gnaphalium</i> spp.) Dandelion (<i>Taraxum officinale</i>) Fleabane (<i>Conyza</i> spp.) Funnel Weed (<i>Cotula turbinata</i>) Jo-Jo (Onehunga) (<i>Soliva pterosperma</i>) Thistles, Threecornered Jack (Doublegee) (<i>Emex australis</i>) Wood Sorrel (<i>Oxalis</i> spp.)	All States	4-5L in 150L of water per ha	Apply to actively growing weeds. A slight browning of turf, especially Paspalum, may occur under hot conditions. Use the lower rate for weeds up to 4-leaf stage. DO NOT mow turf for 2 days after treatment. DO NOT apply to Buffalo Grass. DO NOT feed turf/lawn clippings from treated areas to poultry or livestock.

** Where GROUP A & B weeds occur together, use the highest application rate.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.
