

Product Name: Estate Herbicide
APVMA Approval No: 95166/144840

Label Name:	Estate Herbicide
-------------	------------------

Signal Headings:	CAUTION KEEP OUT OF REACH OF CHILDREN READ SAFETY DIRECTIONS BEFORE OPENING OR USING
------------------	--

Constituent Statements:	300 g/L MCPA present as the POTASSIUM SALT 20 g/L CLOPYRALID present as the POTASSIUM SALT 15 g/L DIFLUFENICAN
-------------------------	--

Mode of Action:	GROUP 4 12 HERBICIDE
-----------------	----------------------

Statement of Claims:	For the control of certain broadleaf weeds in turf as specified in the Directions for Use table.
----------------------	--

Net Contents:	250 mL - 20 L
---------------	---------------

Restraints:	<p>RESTRAINTS:</p> <p>DO NOT apply if weeds or turf are under stress or when frosts are imminent.</p> <p>DO NOT use if rain is expected within 4 hours.</p> <p>DO NOT use clippings as mulch around other plants or for composting.</p> <p>DO NOT use on bent grass or winter grass golf and bowling greens.</p> <p>Spray Drift Restraints</p> <p>Specific definitions for terms used in this section of the label can be found at apvma.gov.au/spraydrift.</p> <p>DO NOT allow bystanders to come into contact with the spray cloud.</p> <p>DO NOT apply in a manner that may cause an unacceptable impact to native vegetation, agricultural crops, landscaped gardens and aquaculture production, or cause contamination of plant or livestock commodities, outside the application site from spray drift. Wherever possible, correctly use application equipment designed to reduce spray drift and apply when the wind direction is away from these sensitive areas.</p>
-------------	--

	<p>DO NOT apply unless the wind speed is between 3 and 20 kilometres per hour at the application site during the time of application.</p> <p>DO NOT apply if there are hazardous surface temperature inversion conditions present at the application site during the time of application. Surface temperature inversion conditions exist most evenings one to two hours before sunset and persist until one to two hours after sunrise.</p>
--	---

Directions for Use:	This section contains file attachment.
---------------------	--

Other Limitations:	
--------------------	--

Withholding Periods:	DO NOT GRAZE TREATED TURF OR FEED TURF CLIPPINGS FROM ANY TREATED AREA TO POULTRY OR LIVESTOCK.
----------------------	---

Trade Advice:	
---------------	--

General Instructions:	<p>GENERAL INSTRUCTIONS</p> <p>For best results the turf and weeds should be actively growing at the time of treatment. Complete weed death may take up to 6 weeks. Faster results can be expected on smaller weeds.</p> <p>Due to residual effects on diflufenican, overseeding treated areas within 3 months of application may inhibit establishment of the turf grass.</p> <p>MIXING</p> <p>Shake original container before use. Continuously agitate the diluted chemical to ensure thorough mixing before and during application.</p> <p>Only mix sufficient chemical for each day's work. Surfactants (if used) should be added after Estate Herbicide and water are mixed when the spray tank is almost full.</p> <p>MOWING</p> <p>Avoid mowing during the 3 to 4 days preceding or following treatment.</p> <p>CLEANING SPRAY EQUIPMENT</p> <p>THOROUGHLY CLEAN ALL APPLICATION EQUIPMENT AFTER USE: Rinse water should be discharged onto a designated area or if unavailable onto unused land away from desirable plants and water courses.</p> <p>Partial Cleaning (before spraying tolerant turf): After using Estate Herbicide empty the tank completely and drain the whole system. Thoroughly wash inside the tank with a pressure hose. Quarter fill the tank with clean water and circulate through the pump, line, hoses and nozzles. Drain and repeat procedure twice.</p> <p>Complete Cleaning (before spraying susceptible plants): After using Estate Herbicide empty the tank completely and drain the whole system. Thoroughly wash inside the tank with a pressure hose. Quarter fill the tank with clean water and circulate through the pump, line, hoses and nozzles, then drain. Quarter fill the tank again and add an alkaline detergent at 500 mL/100 L water and circulate through the system for at least 15 minutes. Drain, remove filters and nozzles and clean separately. Rinse inside the tank thoroughly using a pressure hose and flush system with clean water.</p>
-----------------------	---

	<p>COMPATIBILITY</p> <p>No information is available that indicates physical compatibility with other products therefore, tank mixing other products with Estate Herbicide is not recommended. As formulations of other manufacturers' products are beyond the control of Syngenta Australia Pty Ltd, all mixtures should be tested prior to mixing commercial quantities.</p>
--	--

Resistance Warning:	<p>RESISTANT WEEDS WARNING</p> <p>GROUP 4 I12 HERBICIDE</p> <p>Estate Herbicide is a member of the nicotinanilide, phenoxy and pyridine groups of herbicides. Estate Herbicide has the inhibitors of carotenoid biosynthesis and disruptor of cell growth modes of action. For weed resistance management Estate Herbicide is a Group 4 and 12 Herbicide. Some naturally occurring weed biotypes resistant to Estate Herbicide and other Group 4 and 12 herbicides may exist through normal genetic variability in any weed population. The resistant individuals can eventually dominate the weed population if these herbicides are used repeatedly. These resistant weeds will not be controlled by Estate Herbicide or other Group 4 and 12 herbicides. Since the occurrence of resistant weeds is difficult to detect prior to use, Syngenta Australia Pty Ltd accepts no liability for any losses that may result from the failure of Estate Herbicide to control resistant weeds.</p>
---------------------	--

Precautions:	<p>PRECAUTION</p> <p>Manual Handling of turf: Hand-weeding and transplanting should not be performed before 2 weeks after spray application, unless workers wear overalls (or equivalent clothing) and chemical resistant gloves.</p> <p>RE-ENTRY STATEMENT</p> <p>DO NOT allow entry into treated areas until the spray has dried. When prior entry is necessary wear cotton overalls buttoned to the neck and wrist (or equivalent clothing) and chemical resistant gloves. Clothing must be laundered after each day's use.</p>
--------------	--

Protections:	<p>PROTECTION OF CROPS, NATIVE AND OTHER NON-TARGET PLANTS</p> <p>DO NOT apply under weather conditions or from spraying equipment that may cause spray to drift onto nearby susceptible plants/crops, cropping lands or pastures. Spray drift from Estate Herbicide application may cause injury to herbaceous plants, vegetables, fruit crops, vines, ornamentals and trees.</p> <p>PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT</p> <p>Dangerous to fish and other aquatic life. DO NOT contaminate streams, rivers or watercourses with the chemical or used containers.</p>
--------------	---

Storage and Disposal:	<p>STORAGE AND DISPOSAL</p> <p>Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight.</p> <p>Triple rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or a designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.</p>
-----------------------	---

Safety Directions:	<p>SAFETY DIRECTIONS</p> <p>Harmful if swallowed. Will damage the eyes. Will irritate skin. Avoid contact with eyes and skin. If product in eyes, wash it out immediately with water. Wash hands after use. When opening the container, preparing the spray and using the prepared spray wear:</p> <ul style="list-style-type: none">• cotton overalls buttoned to the neck and wrist,• washable hat,• elbow-length PVC gloves and• goggles. <p>After each day's use wash gloves, goggles and contaminated clothing.</p>
--------------------	--

First Aid Instructions:	<p>FIRST AID</p> <p>If poisoning occurs contact a doctor or Poisons Information Centre. Phone Australia 13 11 26.</p>

DIRECTIONS FOR USE

SITUATION	WEEDS CONTROLLED	RATE	CRITICAL COMMENTS
Turf	Broadleaf weeds including: White Clover (<i>Trifolium repens</i>), Plantain (<i>Plantago lanceolata</i>), Capeweed (<i>Arctotheca calendula</i>), Cat's Ear (<i>Hypochoeris radicata</i>), Bin-dii (Jo-Jo, Onehunga) (<i>Soliva sessilis</i>), Cudweed (<i>Gnaphalium spp.</i>), Creeping Oxalis (<i>Oxalis corniculata</i>)	5 L in 200- 500 L water/ha	Apply to actively growing weeds. Transient discolouration may occur on kikuyu and carpet grass and Queensland blue couch. Varietal differences in certain buffalo grasses (eg. ST85) may produce more pronounced effects and it is recommended that small areas be tested for turf safety before large-scale application occurs. Avoid exceeding application rates through overlapping sprayed areas. Use a surfactant for difficult to wet weeds.

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL
UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**
